

**Dear friends and partners of OCM,**

We want to personally thank each one of you that stood with us during great trials of our country Kenya since elections last December and the violence that followed. Several of you sent funds to assist with displaced people. Life is starting getting back to normal but it will take a while and we therefore request your continued support and prayers.

In view of events that unfolded in the country we at OCM have reprogrammed our 2008 plans for missions. We had tentatively planned a trip this summer in follow-up of our orphanage construction project at our new location (**thanks to all who responded to our relocation funds drive**) it is now complete. By the way we continue to raise funds towards our home construction you can give online at our website and designate your gift. We have a tentative mission trip planned with **Judson University, Elgin, Illinois, in December 2008** as we await restoration and normal life in the country. Continue to pray.

In the meantime, the work continues, the feeding program which had been interrupted by the violence is back in the full swing and we may have to give more as children number has increased. Did you know giving a **\$1.00** a day you can feed two children? In other words giving just **\$7.00** a week you have fed two children, a healthy meal. Join in and help. We need monthly supporters desperately to help the feeding projects and our high school student scholarship fund (**because of your help most our students will be graduating this year, we are very grateful to your gifts and we believe many will continue with higher education, they are bright students**) and support of our pastors as well as other ministerial related projects.

In reprogramming our 2008 plans, we are sending Esther this summer for a fact finding mission as I remain behind with the girls, Emily and Miriam so as we can have update info regarding situation on the ground. This will help strategize the remainder of the year plans. Please join us as we raise funds to assist in her trip. You can send a gift and designate towards her missions travel. On another development we are coordinating to raise funds in a newsletter we shall be sending later towards the displaced people of Kenya who are currently living in tents. OCM being a ministry geared on mission to less fortunate we can not ignore what happened in Kenya which is centre and heart of our ministry. Be on lookout. Remember all gifts are tax-deductible as permitted by law.

Please you can all help raise more money when you continue to use the website of [www.goodsearch.com](http://www.goodsearch.com) as you search the net, purchase goods via internet through Best Buy, Gap, Wal-mart and many other merchants. **You search in the net and OCM get the benefits.**

Thank you once again for being a part of us all these years. Your help has literary changed thousands and thousands of lives in Kenya.

**Sincerely,**

**James M Kinyanjui**  
**President (OCM)**
